06:28PM Fri, 25 October 2013 GMT by Lee

How do you handle the cost if apps when working with a class set of iPads

06:30PM Fri, 25 October 2013 GMT by Emily

When buying a class set you need to buy one for each.

06:35PM Fri, 25 October 2013 GMT by Lee

However, if your district sets up Apple IDs you can buy 20 or more apps for 1/2 price.

06:36PM Fri, 25 October 2013 GMT by Lee
